Website Assignment: Create a Personal Portfolio Website

Objective:
Build a responsive portfolio website with multiple sections using Bootstrap components and classes.

Sections to Include:

1. **Header (Navigation Bar):**
   - A sticky-top navigation bar with links (Home, About, Services, Portfolio, Contact).
   - Use Bootstrap's navbar class for responsiveness.
2. **Hero Section:**
   - A full-screen section with a background image.
   - Include a heading, subheading, and a "Get Started" button.
3. **About Section:**
   - Two columns:
     - Left: Profile image.
     - Right: Text describing yourself.
4. **Services Section:**
   - Use a grid layout with 3 cards (e.g., Web Design, Graphic Design, Digital Marketing).
   - Each card should have an icon, title, and a short description.
5. **Portfolio Section:**
   - Display a grid of 6 portfolio items.
   - Each item should have an image, title, and overlay text visible on hover.
6. **Contact Section:**
   - A simple form with fields for Name, Email, Subject, and Message.
   - Use Bootstrap's form validation.
7. **Footer:**
   - Include social media links and copyright information.
